PROFILE

I am a recent graduate of petroleum and gas engineering, and a self-taught frontend web developer, possessing the necessary communication, listening and analytical skills, looking to secure a position in order to develop professional knowledge and skills in technology as well as applying the acquired information to real life industrial problems. I am highly motivated and detail-oriented Frontend Web Developer with strong skills in HTML, CSS, JavaScript and ReactJs. Passionate about developing engaging user interfaces and creating responsive websites. Seeking an opportunity to apply my skills and gain experience in a dynamic and challenging work environment.
