PROFILE

I am a Petroleum Engineering graduate (Second Class Upper) who has been diving into the tech world by teaching web design, working as a software developer. I enjoy solving problems, learning new tools, and working on real projects. Now, I am looking to bring my mix of engineering knowledge and tech skills into a growing industry like telecoms, where I can keep learning and add value.

BIODATA

Gender: Male
Date of birth: 11th June, 1997
State of origin: Rivers State
Marital status: Single
